

CPT PROJECT LIST & DISCUSSION FORUMS Training Overview

Regional Standardization

- First time users need to go to the Discussion Forum to have their account verified by the application

- The web site address is:
<http://www.dmmonline.com/standardization>

The screenshot shows the DMMonline website, titled "The Warfighter's Medical Logistics Portal". The header includes the DMMonline logo and a navigation bar with links: Pharm, Med/Surg, Equipment, Readiness, Order Products, Customer Service, and Site Log In. The main content area is divided into two columns. The left column, titled "Regional Standardization", contains a list of regions (1 - Northeast, 2 - Mid Atlantic, 3 & 4 - Southeast, 5 - Heartland, 6, 7, 8 - Southwest/Central, 9 & 10 - S. California, 11 - Northwest, 12 - Pacific, Europe) and a "Regional Standardization" section with links: Program Overview, Information for Vendors, Tri-Service Business Office, Presentations and Publications, Related Links, Point of Contact*, Discussion Forum*, and CPT Project List*. A red arrow points from the text "Click here to enter into the Discussion Forum" to the "Discussion Forum*" link. The right column, titled "Tri-Service Regional Business Office Medical Logistics Programs", contains text about the partnership between the Department of Defense and the world's premier medical health care system, and a section titled "Regional Standardization" with text about the Defense Supply Center Philadelphia (DSCP) and its nine Tri-Service Regional Business Offices (TRBO). A graphic of the DSCP logo is also shown.

Account**

Please note that the appearance of our login form has changed!

DMMonline provides our customers and trading partners access to various e-Commerce and business applications. Some of these applications pre-date the internet and have separate security structures. Currently, if a customer needs access to all of our applications, they will need a separate username and password for each application.

In order to serve our customers better and to increase the security of our site, DMMonline will be incorporating new security software which will provide single logon access to all of our applications. Of course, a user will still need authorization for a particular application. We will be implementing this new security structure on an aggressive timeline but will be coordinating this effort with each application's program integrator to ensure we minimize the impact on our customers. The following is a list our applications that are to be secured in the coming months.

Forum Access links

- [CPT Project List Home](#)
- No access to Region 1's CPT!
- No access to Region 2's CPT!
- No access to Region 3,4 CPT!
- No access to Region 5 CPT
- No access to Region 6,7,8 CPT!
- No access to Region 9,10 CPT!
- No access to Region 11 CPT!
- No access to Region 12 CPT!
- [Europe's CPT](#)
- [Public Discussion](#)

Click on the appropriate **Green** link to access your CPT's Secure Discussion

Discussion Forum Menu

After clicking on the link the CPT discussion or Public discussion will be loaded. Please allow 5 seconds for automation login to the Forum discussion application. Once logged in choose your Product Group then choose your category or create a new category for discussion. Inside the category thread you can post discussion topics. Once finished you do not have to log out, just close the browser and you will be automatically logged out.

- For "CPT Secure Discussions," the site will only allow individuals access to those discussion rooms where they are a member of the CPT

-For example, the member of a CPT in TRICARE Europe will only be able to access Europe's CPT discussion group

-If two Regions were working on one CPT (for example Region 1 and Europe) then members of the CPT could have access to both Regions' discussion groups

**You must first Click
Here to Subscribe to
the group**

Tri-Service Regional Business Office Medical Logistics Programs

Medical Services of the Department of Defense (DoD) have joined in a regional partnership to promote efficiency and responsiveness in support of the world's premier medical health care system. This initiative binds the health care activities of the Army, Navy and Air Force within DoD TRICARE.

The cornerstone of this partnership is a program to promote the regional standardization and committed volume purchasing of high quality medical-surgical supplies and medical equipment. The overall goal is to reduce costs, improve responsiveness, strengthen collaboration with suppliers, and enhance readiness. This Web Site promotes the communication and coordination within this regional partnership and provides potential business partners and other interested parties with information on this initiative.

Regional Standardization

This program operates under the overall structure of the DoD Prime Vendor Program of the Defense Supply Center Philadelphia (DSCP). Nine Tri-Service Regional Business Offices (TRBO), established throughout the United States, Europe, and Hawaii, serve as DSCP's forward presence, and are the integrator and focal point for the regional program.

This Web Site promotes the communication and coordination within this regional partnership and provides potential business partners and other interested parties with information on this initiative.

To see the Project List column definitions click on Help

The screenshot shows a web browser window titled "Project List Help - Microsoft Internet Explorer provided by DSCP". The page header includes the "DMMonline Directorate of Medical Material" logo and the text "The Warfighter's Medical Logistics Portal". A blue arrow points from the text "To see the Project List column definitions click on Help" to the "Help" link in the left sidebar. The sidebar also contains links for "Pharm", "Regional", "CPT F", "Quick", "Extern", "Visitin", "Sugge", "Custoi", and "To search". The main content area is titled "The Project List" and contains the following text:

This is the starting point for the RSA (Regional Standardization Application). You may view the details of a project by clicking on the Product Line name. If a project is completed, you may download the final report (usually a Microsoft Word document) by clicking on the icon in the Final Report column.

Here is an explanation of the columns in this table:

- Category:** The general category for the project.
- Product Line:** The name of the product being evaluated. Clicking on the name will take you to the details of the project.
- Lead Facility:** The facility that is the lead for this standardization project.
- Region:** The Tri-Care Region(s) that this project encompasses.
- Status:** The status of the project. This may be Phase 1-4, Suspended, or Completed.
 - Phase 1 - Data Collection
 - Phase 2 - Clinical Analysis
 - Phase 3 - Selection and Agreement
 - Phase 4 - Compliance
- Completed:** If a project is completed, this shows the completion date.
- Final Report:** A link to download the final report that was uploaded when the project was completed.

At the bottom of the page, there is a "Return to DMM Home" link and an image of binoculars.

Project Details

This page provides details of a chosen product line's standardization project. Here is an explanation of the information on this page:

Category: The general category for the project.

Product Line: The name of the product being evaluated.

Status: The status of the project. This may be Phase 1-4, Suspended, or Completed.

- Phase 1 - Data Collection
- Phase 2 - Clinical Analysis
- Phase 3 - Selection and Agreement
- Phase 4 - Compliance

POC: The Point of Contact for this project. The person's name is an eMail link.

Region: The Region of the Lead Facility.

Department: The department that is conducting the product evaluation.

Completed: If a project is completed, this shows the completion date.

Lead Facility: The facility that is the lead for this standardization project.

Final Report: A link to download the final report that was uploaded when the project was completed. This will only appear for a completed project.

Purpose: The reason for this product line being evaluated.

Criteria: The criteria upon which the evaluation is based.

Project Members: A list of members participating in the evaluation of this product. The names in this list are eMail links to the members.
